*The Inner Counselor System* is a highly effective approach to **self-directed, on-going** spiritual healing and personal growth. This system includes a conceptual ***Integration Chart*** and a ***15-Step Guided Self-Awareness Process***. The Integration Chart provides a map for understanding our response patterns. The 15-Step Process is a dynamic tool for individuals seeking on-going personal and spiritual growth and for professionals interested in a highly effective clinical intervention. Learn to quickly and permanently resolve trauma as well as common, immature dysfunctional coping patterns. From a spiritual perspective, memories and beliefs within the personality are accessed and dynamically shifted from the personal to the transpersonal. We retain the memories, but their original emotional charge no longer rules our responses and behavior. For more information about this work and an illustration of the Integration chart click on Dr. Nunley's website: [www.innercounselor.com](http://www.innercounselor.com)
