

Eric Nepute

As Dr. Eric Nepute was growing up in the small town of Carlinville, Illinois, a natural athlete, he excelled at football earning a football scholarship to Millikin University. Football wasn't his dream though; from childhood, Dr. Eric had dreamed of being a top surgeon. Until a shoulder injury led to a revelation. A traditional doctor told him he would never play football again, and probably wouldn't have full motion of the shoulder. So he retired his football career, finished his bachelor's degree and changed his dream. He knew he wanted to make a real difference in people's lives. He committed himself to a career in Chiropractic Wellness Care and would go on to graduate from Logan College of Chiropractic with advanced studies in sports medicine, advanced nutrition, applied kinesiology, functional neurology, internal health, and anti-aging.

Dr Eric says, "People judge their health on how they feel instead of how they function, and it's the biggest mistake a person can make." It is now Dr. Eric's mission to empower all people to no longer be a victim of their health or circumstances and instead learn how their body works and how to achieve a state of total wellness.

Dr. Eric has become a sought-after speaker in the health and wellness community, speaking on topics ranging from stress management to how to live a pain free life. He has helped businesses both large and small save hundreds of thousands of dollars by assisting in their health and wellness programs. His unique ability to simplify complex health issues has brought Dr. Eric to the top of his field, not only as a clinician, but also as an expert speaker. Dr. Eric's workshop programs have been called "educational, motivational, and inspirational."
